

David Farmer/Drama Resource Drama INSET and CPD 2024

Since 2005, Drama Resource has supplied bespoke Drama training across the UK and abroad in primary and secondary schools, and at conferences. A typical session introduces staff to a range of drama strategies, games and approaches which can be used to boost literacy and to create interactive learning opportunities across the curriculum. An opportunity is given for staff to discuss and try out approaches linked to current and upcoming topics and themes. We also offer training in stage direction, voice, movement, ensemble work, devising and working with a script.

The interactive staff training day can be tailored to the requirements of the school. All courses are highly practical and include **full course notes**, enabling participants to easily adapt the approaches for their own use. Booking us to visit your school is a cost-effective way of training staff.
